Issues

- Fixed the issue of irregular display of the order of selection process in the Resume sublist
- Fixed the issue of irregular display of data on the calendar when the data is displayed over and over
- Fixed the issue of print window opening when 「Enter」 key is pressed while on the Add New window if the browser is Internet Explorer 11.
- Fixed the issue of phase selection check boxes above the list view failing to display when 「My Job」 is selected.
- Fixed the issue of Contract content not appearing in the exported file when the phase check boxes above the list view are selected for the export target.
- Fixed the issue of incorrect order of data display in the list view when an older date is registered in 「Date updated」 during data import.
- Fixed the issue of email template content disappearing when mouse cursor is pointed at 「Template Name」 or 「Subject」 and Enter key is pressed when creating a new template.
- Fixed the issue of the layout getting distorted if there are blanks in all of the items displayed in the match result list.
- Fixed the issue of wrong period being displayed on dashboard graph when 'month' is selected as the aggregation period.

※The contents of this document are current as per the time of publication.
However, minor changes may be made.

Details

1 Introduction of search window for easy search

Summary

A search bar to search IDs and key words has been set just above the global menu and therefore search functions can easily be performed without opening search windows.

First the menu name for the search target is selected, then ID or Keyword is entered and search is performed by pressing the Enter key.

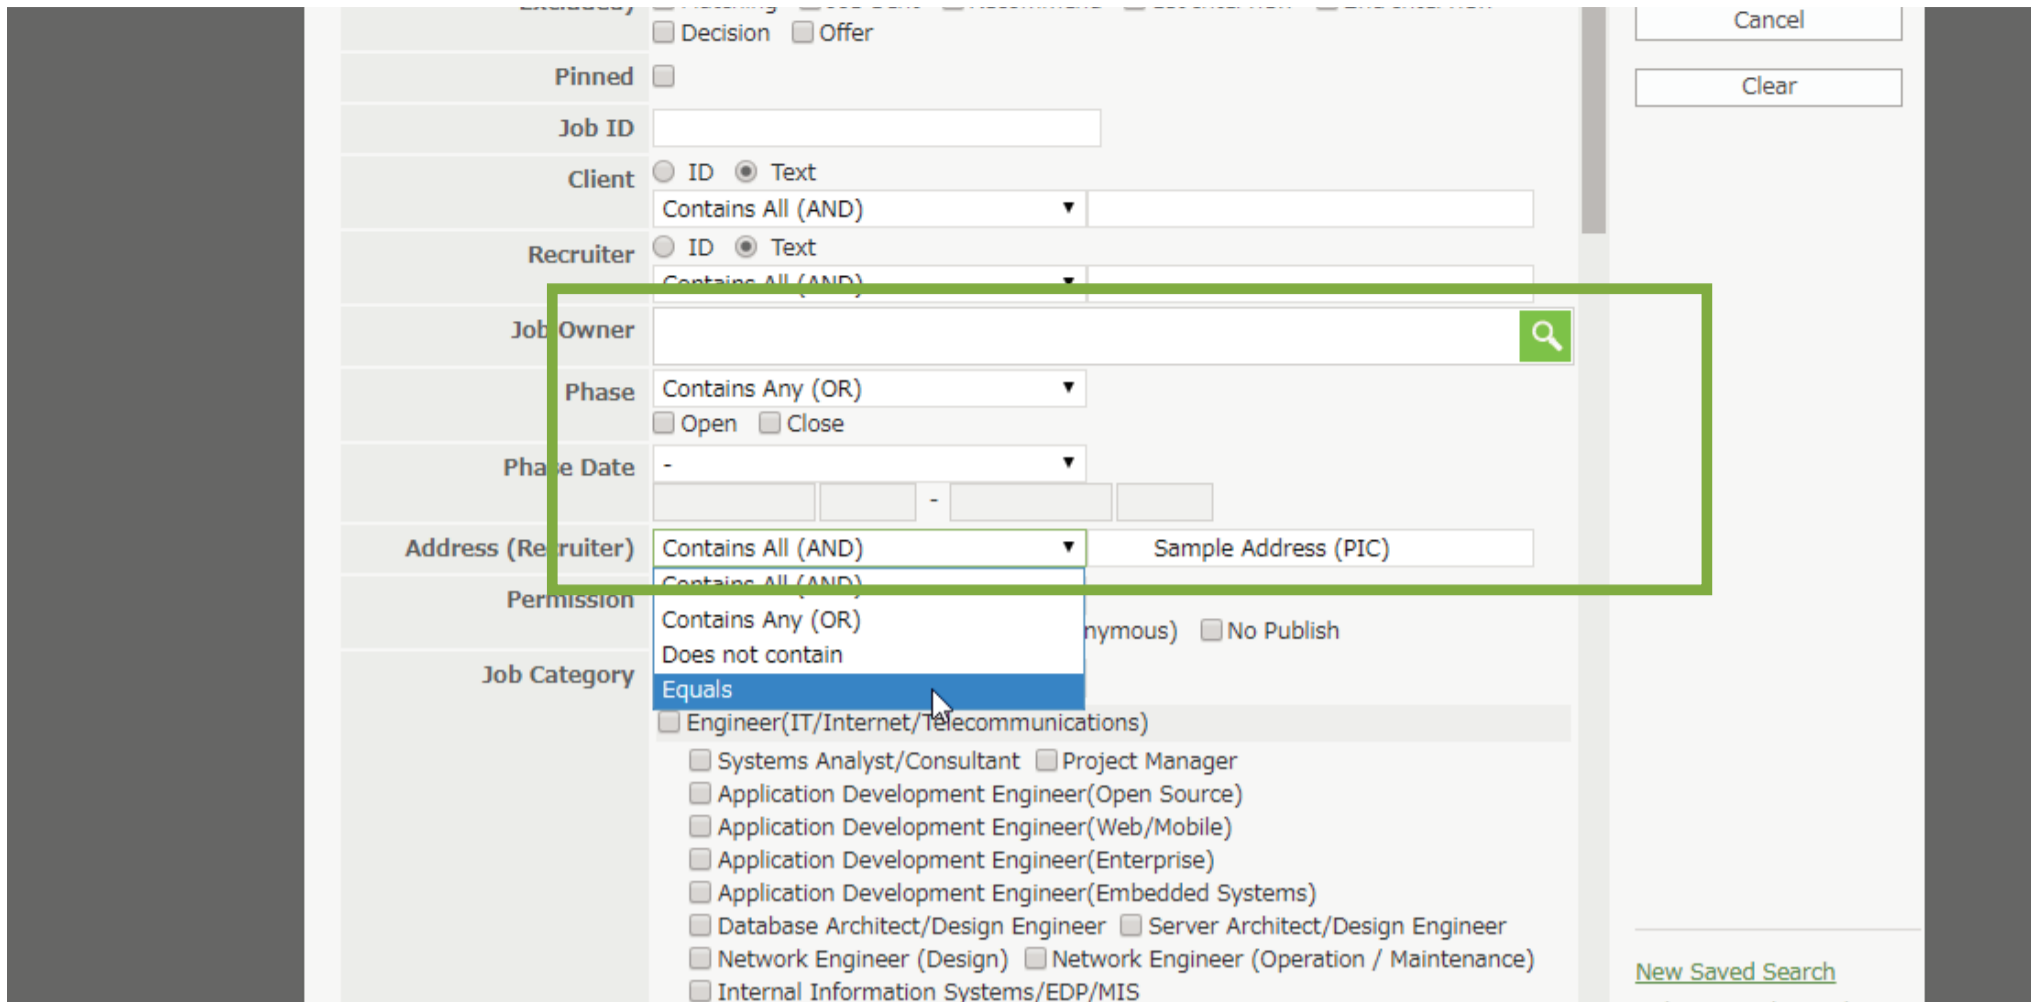

For Example, if you search for Sample in the Client data, the above results will be displayed.

The screenshot shows the PORTERS HR-Business Cloud interface. At the top, there is a search bar with the text 'Sample' entered. Below the search bar, there is a dropdown menu with 'Job' selected. The main content area displays a 'Job List' with two entries: 'Sample Job 02' and 'Sample Job 01'. Each entry has a 'Matching' button and a list of details including Client, Position, Salary Details, Work Location, Permission, and Job Owner. The 'Sample Job 02' entry shows details for 'Sample Client 02' with a phase of 'Open' and a phase date of '2018/03/19 00:00'. The 'Sample Job 01' entry shows details for 'Sample Client 01' with a phase of 'Open' and a phase date of '2018/03/19 00:00'. The footer of the page contains links for 'Agreement', 'Service Level Agreement', and 'About PORTERS HR-Business Cloud', along with a copyright notice for PORTERS Corporation.

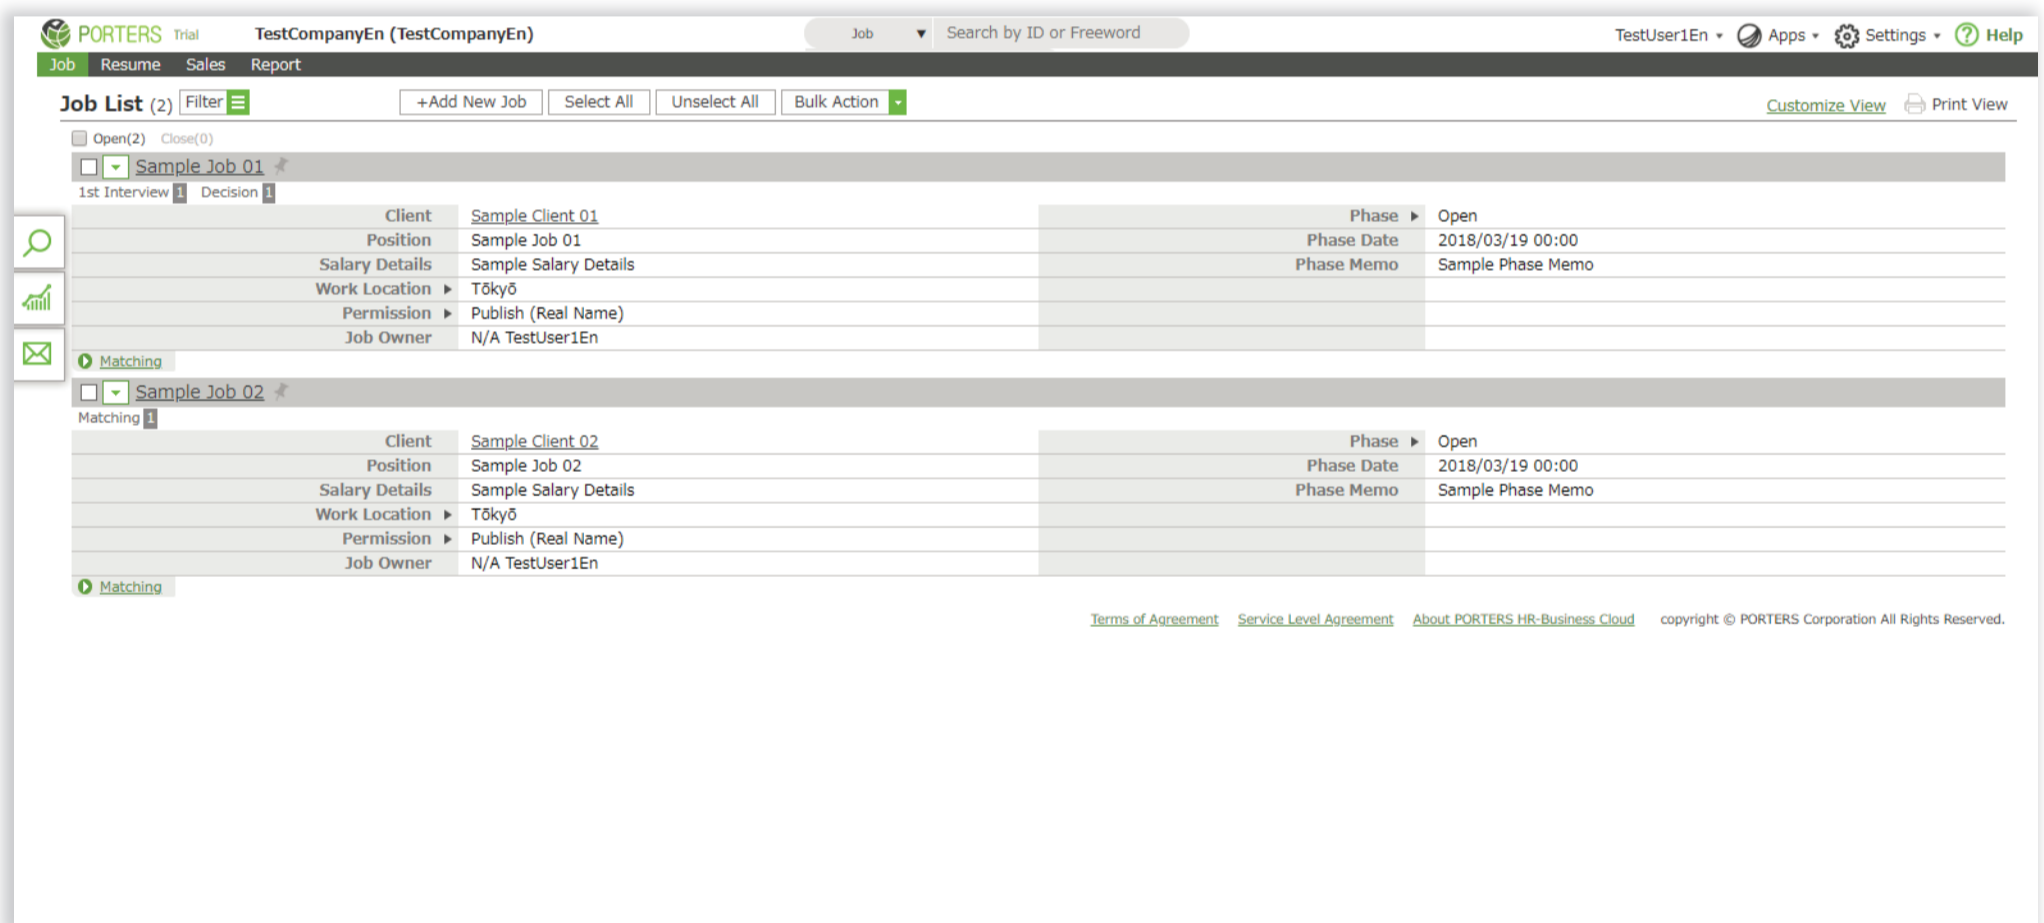

2 「Absolute match」 of text search criteria

Summary

In search windows, 「keyword」, 「Single Line Text」 and 「Multiple Line Text」 items will have an additional new option of 「Absolute match」 as part of the search criteria. If this option is selected, content with

For example, in the 「Address Details」 item of 「Client」, if the address is input and 「Absolute match」 selected, the search results of the Client list view will be as displayed below:
