HR Business Cloud version

Overview

HR Business Cloud(HRBC) Version 4.0.2 has the following changes.

Set the sender's email address that is displayed by default

It is now possible to set the sender's email address that becomes the default email address displayed on the new email window.

2 Improved display of the header menu

The display of the small search window has been set to adjust with the width of the screen.

Issues

• Fixed the issue of the Company Name and Bulk Action icon being hidden by the small search window when the width of the screen is reuced.

• Fixed the issue of reference items failing to display well on the list view screen depending on the customization settings.

• Fixed the issue of the key item changing on the import screen if an existing import setting is used and the mapping is edited then saved.

• Fixed the issue on the report function that 「Past 7 days」 was displayed instead of 「Past 30 days」, resulting to the display of two 「Past 7 days」 on the criteria page when setting the report period if the language is set to English.

• Fixed the issue of irregular display of the small search window when the top page is opended in

Windows 7 Internet Explorer 11.

%The contents of this document are current as per the time of publication. However, minor changes may be made.

Details

1 Set the sender's email address that is displayed by default

Summary

It is now possible to set a specific sender's email address that becomes the default email address displayed on the new email window. By setting the sender's email address, the possiblility of sending from unintended email address is eliminated.

2 Improved display of the header menu

Summary

The display of the small search window on the header menu and Bulk action icon have been set to adjust with the width of the window.

PORTERS(Porters)	Job V Search by ID or Freeword	Taro Tanaka 🛛 🕢 🔅 🕐
Job Resume Sales Report		
	For example, if the width of the window is expanded, the small search window icon is displayed horizontally.	

Width 1024px ~ 1279px

If the width is contracted, the Company name and username are displayed partly, but when you mouse hover, all the full name is displayed.
