

version

4.0.6

—Release Note—

Overview

HR Business Cloud(HRBC) Version 4.0.6 has the following changes.

1. Fixed the issue of deleted resume attachments being read by the API's Attachment Read.
2. Fixed the issue of document templates being able to be saved when only a space is input in any of 「Name」 「Subject」 「Content」 items, but failing to display in the template drop down list.

※The contents of this document are current as per the time of publication.
However, minor changes may be made.
